How do you feel it went? (Teacher)			√			Nice rapport/manner with students. Excellent practical activities.
What did the students think?		√				Very informative, good & detailed. Kept us interested, involved and interactive. Actives were fun.
What went particularly well?					What needs improvement?	
The mirror activity and Dementia Virtual Tour link					With this quiet group, have different strategies for questioning: give group names/colours then give the question to write down 3 points & feedback. Use "Phineas Gage"
